Notice of Meeting

Councillors

The next meeting of Council will be an Ordinary Meeting to be held on Wednesday 19th October 2011.

The meeting will be commencing following morning tea at the conclusion of the Special Council Meeting.

Thank you

Trevor J Smith
Chief Executive Officer
12 October 2011

Date:	12 October 2011
Disclosure of Interest:	NIL
Responsible Officer	Ellen Della Bosca - DCEO
Author:	Ellen Della Bosca - DCEO

If a Councillor has any questions regarding the enclosed finances, please see the Deputy Chief Executive Officer prior to the meeting so that a researched answer may be provided.

Background

A list of payments submitted to Council on 30th September 2011, for confirmation in respect of accounts already being paid or for the authority to those unpaid.

Financial Implications

A list of payments is required to be presented to Council as per section 13 of the Local Government Act (Financial Management Regulations 1996).

Policy Implications

Council Policy No. 1.6.5 (e) states that a list of payments is required to be presented to Council each month in accordance with Financial Management Regulations 13(1) for recording in the minutes.

Recommendation

That the list of payments to today's meeting on Vouchers – Muni 28946 – 29007 and Transfers D/D40.1112 to D/D53.1112 totalling \$478,266.95 for payments made in September 2011, be passed for payment.

Location:	NEWROC
File Ref:	
Applicant:	Trevor Smith – CEO
Date:	12 October 2011
Disclosure of Interest:	NIL
Responsible Officer	Trevor Smith - CEO
Author:	Trevor Smith - CEO

Background

NEWROC Executive held a meeting on Tuesday 27 September 2011. The CEO was present at this meeting. The minutes are attached.

The meeting was attended by Ray Watson who discussed the outcomes from the Central Wheatbelt Visitor Centre workshop. There is still no clear indication from the Shire of Merredin about the level of contributions that it wants from participating Councils.

Matters for Decision

- 7.1 CLGF – Regional Grant Funds
- 7.2 Regional Accommodation Needs Study
- 7.3 Transfer of NEW Health Scheme to NEWROC
- 8.1 Waste Authority – Waste Management Strategies
- 8.2 Future Grant Funding Proposals
- 8.3 Employment of Engineering Technical Officer

These matters can be discussed further if Councillors have any queries or concerns before the NEWROC Council meeting formally consider the recommendations at their meeting on 25 October 2011.

Recommendation:

That Council note the minutes of the NEWROC Executive meeting held on 27 September and pass any concerns to the NEWROC delegate and the CEO.

8.2.4 Berringbooding Tank - Reroofing	
Location:	Shire
File Ref:	
Applicant:	ALGA
Date:	12 October 2011
Disclosure of Interest:	NIL
Responsible Officer	Trevor Smith - CEO
Author:	Trevor Smith - CEO

Background

Funding options have been identified to cover part of the costs of reroofing Berringbooding Tank. If the tank (and the reserve) was to be vested in the Shire through a Management Order then the reroofing would not need to be to the gold plated standards of the Water Corporation – estimated cost \$750,000. (The Water Corporation has indicated that they would not proceed with reroofing at that price.)

1. Funding of \$100,000 could be available through the Rural Water Program (Dept. of Water).
2. Funding could be available through the Water Corporation as a reimbursement of water charges over the past years when no scheme water has actually been used and an acknowledgement that locals have been maintaining the catchment – not the Water Corporation. Also, this removes the tank and catchment from the Water Corporations responsibilities saving them money in the future.
3. Royalties for Regions – through the WDC.
4. Federal Government – any current grants program that conserves water?
5. Own source funding – water use charges could assist in financing a loan if sufficient funds were unavailable.

If the Shire had a Management Order over the reserve then we could charge a small fee for camping but this would only cover maintenance of the toilet and other facilities.

Financial Implications

Any proposal would need to be packaged with all financial aspects covered before proceeding. The Water Corporation have agreed not to dismantle/change anything until a way forward has been agreed to by all parties.

Strategic Implications

The State Government through the Departments of Water and Food and Agriculture have recently become interested in off-scheme water supplies and conserving water. The Water Corporation appear intent on only maintaining pipelines and decommissioning off-scheme supplies. They seem more interested in increasing charges and restricting water use than supplementing scheme water.

Recommendation

That Officers:

1. continue to source all funding options for re-roofing the tank;
2. (notwithstanding part one) continue to pressure the State Government to re-roof the tank themselves as part of normal maintenance operations;
3. continue to investigate cheaper effective roofing options; and
4. continue to investigate obtaining a Management Order over the Reserve.

8.2.5 Swimming Pool Stage Two – Grant Application	
Location:	Mukinbudin
File Ref:	
Applicant:	Council
Date:	12 October 2011
Disclosure of Interest:	NIL
Responsible Officer	Trevor Smith - CEO
Author:	Ann Brandis

Background

Council has received funding from CSRFF for Stage one of the redevelopment of the Mukinbudin Aquatic Centre and works are in progress.

An application for further CSRFF funding has been completed for stage 2 of the redevelopment of the pool. This includes the following works

- Main Pool – internal surface:
 - Replace all inlets from plant room to pools and returns to balance tank with PVC
 - Replace scum gutters creating a level deck pool with wet decks. Finished water height at shallow end to be 1.2m
 - Replace drainage
 - Replace starting block with antiwave or similar at both ends of pool
 - Replace hand rails and ladders
 - Install disabled ramp entry/beach entry
 - Install finger grips on southern side of pool 12.5metres from Shallow end on the opposite side to the beach entry/disabled ramp
 - Install depth markers and safety signage to Health Dept specifications
 - Decommission centre channel
- Concourse:
 - Replace concourse around Olympic pool only, including an entrance ramp on the northern and southern sides with a retaining wall in between these entrances

The works listed above are eligible for funding

- Garden/Shade
 - Install Permanent Shade Sail at the end of the Shallow end to cover the concourse
 - Install line of pool fencing between the new concourse and the toddlers pool
 - Remove existing palm trees and gardens, re border with limestone blocks and revegetate with low grow shrubs/grasses

The works listed above are ineligible for funding and would have to be covered from Council's funds and would be in the vicinity of \$30,000 – a firm quote has not been received at present.

The other item that will need doing at the same time as stage two is to repaint the pool bowl or tile the pool bowl. The painting of the pool bowl could be eligible if Council can prove to the Department of Sport & Recreation that this is a more viable option over tiling. Quotes for both

options have been received. To paint the bowl would cost \$50,000 and last approx 5 – 6 years. To tile the pool bowl would cost approx \$280,000 - \$300,000 and this would then last the life time of the pool which could conceivably be another 30 years. With this in mind we could argue that it is much the same and then we could try and get the painting portion included in the eligible portion.

Quotes from two companies have been received and the total cost of the project for the eligible portion including the painting of the pool bowl is \$755,500. However Wetdeck Pools are also recommending the installation of new control joint across the entire pool in the shallow end to eliminate the existing crack. This work would be eligible and would cost a further \$25,000 bringing the total project to \$780,500.

Under the CSRFF guidelines an annual grant the total project cost is required to be no greater than \$500,000. However a Forward Planning Grant can be made for projects that are greater than this. We have applied for a Forward Planning Grant which insists that a signage allowance of \$1500 must be added to the project cost bringing the total cost of the project to \$782,000. Council are able to apply for one third of this cost making the funding application \$260,000.

Comment:

A meeting was arranged between Jenifer Collins Manager – Wheatbelt Department of Sport and Recreation, Kaye Bunney and Ann Brandis. Also present was Jannah Stratford who also works at the Department to discuss the project and inspect the works from Stage One. Jen has advised that due to where we are at with the works from stage one and the scope of works included in stage two that we would be a low priority for this funding. However it is still important to apply for this money to show Council's commitment to the project and the redevelopment of the Aquatic Centre.

Applications for CSRFF must go to Council and be prioritised before being sent off to the Department of Sport and Recreation. There are no other CSRFF applications which have been received by Council.

Statutory Environment: Nil

Policy Implications: Nil

Financial Implications:

An amount of \$260,000 is being sought under the funding application. If successful this will leave an amount of \$522,000 that needs to be funded by Council funds and will need to be allocated in the 2012/13 budget. The Plan for the Future prepared by Bob Waddell projected an amount of \$500,000 to be spent on Stage Two in 2012/2013 and a further \$410,000 in Stage Three and \$150,000 in stage Four. If the application is successful Council will need to commit to bringing forward some of the future funding, either from General Purpose Income or through loan funds. The Plan for the future is only a guide to Council's projected expenditure and is not an adopted budget. It is expected that timelines and activities in the Plan will change over time as circumstances change.

The options for funding would need to be explored more thoroughly between now and the announcement of the CSRFF grants.

Strategic Implications:

The swimming pool has been recognised by Council as an important element of community infrastructure, albeit one that makes an annual loss. The current structure has lasted about 45 years with minimal maintenance or improvements. The redevelopment needs to be looked at in the same manner, that is, an investment that will last another 45 years. This time however it is hoped to build a pool reserve to allow for future works to be funded in a more sustainable manner.

Recommendation:

As there were no other applications received for the CSRFF grants Council's application for Stage 2 of the redevelopment of the Mukinbudin Swimming Pool be ranked number one. Further that Council endorse the application for stage two of the upgrade of the Mukinbudin Swimming Pool at a cost of \$780,500 excluding GST and subject to the application being successful provide Council's contribution to the project in the 2012/13 budget.

8.3.1 42 Maddock Street, Mukinbudin	
Location:	42 Maddock St. Mukinbudin
File Ref:	
Applicant:	Julian Goldacre – EHO/BS
Date:	13 October 2011
Disclosure of Interest:	NIL
Responsible Officer	Julian Goldacre – EHO/BS
Author:	Julian Goldacre – EHO/BS

Background

In August this year concerns regarding the deteriorating roof at 42 Maddock Street (property) were reported to the Shire. The PEHO/BS investigated the roof at the address and discovered about 6 pieces of roofing iron was no longer present on the roof. Discussions with people living nearby revealed recent storms have caused the roof to lose the roofing iron and concerns again raised regarding the safety of people in the area should a piece of iron cause damage to persons and/or property.

Comment

Mr P Hargraves owns the property and presently lives in Beacon; the property in Maddock Street is presently unoccupied. A letter was sent to Mr Hargraves on the 7 September by registered post and was eventually delivered to Mr Hargraves on the 21 September.

Following concerns again regarding the roof losing more roofing iron Mr Hargraves phone number was tracked down and was contacted on the 28 September. Mr Hargraves then assured the PEHO/BS that he would action repairs to the roof on the 29 or 30 of September.

Investigations of the roof on the 5 October revealed no repairs had been actioned and further roofing iron has parted company with the roof battens. The front room of the dwelling also has a collapsed ceiling and water damage caused by the removed roofing iron.

All the above considered the matter is best dealt with by use of the *Health Act 1911* Part V Division 1 houses unfit for habitation section 139 & 140 (1) by declaring the house unfit for habitation by cause of a large portion of roof now missing and to thereby issue a notice for repairs to be done within a period of time. And furthermore if such repairs are not done within the time so given then the Local Authority shall make good the repairs itself and recover the cost of doing so from the owner.

The owner of 42 Maddock Street does have the right to appeal Councils decision pursuant to the *Health Act 1911* section 36 (1) 'Review of orders and decisions of local governments' Any person aggrieved by any order or decision of a local government may apply to the State Administrative Tribunal for a review of the order or decision.

Policy Implications

Nil

Statutory Requirements

Health Act 1911

Financial Implications

In the event the roof repairs are not actioned by the owner within the time given the Shire can do the repairs and recover the cost of doing so from the owner.

Recommendation

That the dwelling located on lot 54 (N^o 42) Maddock Street Mukinbudin is unfit for human habitation due to the front roof section of missing roofing iron causing weather ingress into the dwelling and that the following notice of works is applied:

- 1) That within 14 (fourteen) days from receipt of the unfit for habitation notice works to repair the roof to a workman like standard acceptable to the Shire of Mukinbudin Principle Environmental Health Officer/Building Surveyor be completed.
- 2) Allowing 28 days from the receipt of the letter plus an appeal period to the Administrative Tribunal (14 days each) the Shire enters the property and makes good the repairs charging those works against the property for the purpose of cost recovery.

8.4.1 Mukinbudin Caravan Park Manager's

8.4.1 Mukinbudin Caravan Park Report	
Location:	Mukinbudin
File Ref:	
Applicant:	Trevor Smith
Date:	12 October 2011
Disclosure of Interest:	NIL
Responsible Officer	Nil
Author:	Trevor Smith

September was an excellent month for the caravan park with good income especially for the units and the sites exceeding the previous two months combined. This is to be expected with the Spring Festival and being in the peak tourist season.

Danny and Gloria O'Donnell have acted as caretaker managers and done an excellent job. It is hoped that this is a role that they could continue with in any absences of the managers in the future.

Luke and Tania Sprigg will commence on Monday 17 October.

"MAD" had a clean up at the park on a Sunday which was very successful.

Recommendation

That Council note the above Report.

New Pool Mangers

Luke and Tania have completed their pool operators course in Albany. They are currently completing their Bronze Medallion, Senior First Aid and Life Guard courses at Bayswater Waves.

Plant room

The shed is about ½ finished. Internal plumbing has been done and now the doors, windows and end wall can be completed so the floor can be poured, which is scheduled for Monday 24th October. Steve the plumber has been and he and Brian discussed the requirements for water inside and outside the shed. The Electrical work and connections has also been ordered from Mukinbudin Electrical.

Servicing

The BA, Oxy viva and lawn mower have been serviced and we are waiting for notification that the vacuum cleaner and water tester have been serviced.

Pool Opening

The pool is scheduled to open in the middle of December which will put vac swim starting the week after opening.

POOL UPGRADE

Following the installation of the below ground tank and associated piping the shed pad was prepared. The shed is now erected as far as possible, waiting for the contractors do their fit out, the concrete floor will be laid on the 24th Oct. Once this is done we can erect the perimeter fence.

MAINTENANCE GRADING

Bitumen Shoulder maintenance has been carried out on Muka- Wialki, Muka- Kununoppin, Muka- Bencubbin, North East Rd and Nungarin Nth Rd. Will and Noel worked as a team with the grader and rubber tyred roller, Noel also slashed the road verges. Danny and Cameron used a grader and the steel vibe roller on the Muka- Wialki shoulders.

Maintenance grading will re-start in the south west of the shire and work north along Barbalin, Aitken and Forest Ave Roads.

MUKINBUDIN – WIALKI RD

(900mts of corner reconstruction)

The new Pavement work has now been completed and will be allowed to dry back until after harvest. Sealing will be done after harvest. Graham Seaby has kindly donated all of the gravel required for this job.

STRUGNELL ST EXTENTION AND CBH PRIVATE WORKS.

The Shires` Works Crew have completed the preparation of the Sub-Grade and are currently working on the water binding and compaction of first 150mm layer of gravel pavement. Once this has been compacted the second 150mm layer will be put in place.

In the mean time a 12 metre wide twin barrel Box Culvert will be installed at the Intersection with the CBH Layout east of their weighbridge. The Shire was given this job on the 7th October worth \$ 36000.00.

All work is to be completed by the 27th of October. Murray Ventris has made gravel available for these works.

REFUSE SITE MANAGEMENT

Daniel Mori has cleaned up the windblown rubbish along the fenced driveway into the tip. This occurs when the gates at the pit are left open.

There seems to be a large amount of white goods being dumped at our tip, unfortunately there is nothing in place to shred these items into saleable scrap. The “recyclable” items have once again been buried.

OUTSIDE STAFF

The crew is now at full strength with the return of Michael Sredojevic, who has been away on Workers Compensation while recuperating from his hand injury. His immediate role will be to spray out all of the winter weeds and overhaul all of the towns` reticulation in time for warmer/drier conditions. Daniel will assist him or work under his direction.

Will Jenkin will resume maintenance grading until he takes time off to do his own harvest.

Danny, Cameron and Shane will finish off the Strugnell/CBH job, and then move onto road maintenance for the duration of harvest. Cameron is doing a three day grader course this month and Shane has grading experience, they will be mentored by Danny and myself. Noel will continue as a back-up operator and sign/ guide post maintenance.

UNFINISHED JOBS.

Nungarin/ Kununoppin Black Spot; A second coat seal to be applied.

Strugnell St/ CBH; Currently in final stage of completion.

Bent St/ Strugnell St; The slip road from the north is to be cement stabilised and sealed.

Strugnell St drainage; The pipes are currently being manufactured.

Swimming pool; Fencing, landscaping reticulation and a drain to be installed across Mallee Dve into the storm water drain to take away the flushing water from the filtration process.

PLANT UPDATE

MBL 696; The 6 wheel Mitsubishi Tip Truck had its` Brakes renewed

MBL 1677; The Cat Steel Drum Vibe Roller arrived on the 15th Sept.

It has worked continuously without fault.

MBL 250; This Truck and Trailer unit had some minor repairs and some costly replacements mainly in the hydraulic tipping components.

MBL 1091 The Komatsu Backhoe had some routine maintenance replacement Items fitted.

MBL 1463 The New Holland Tractor had its` windscreen replaced after an incident with a rock thrown up by a passing truck.

MBL 1000 The Ford Courier ute LH mudguard was damaged when the front gate at the Depot blew shut as the ute entered.

MBL 0 Dyna- Fog “Blackhawk” Pro. This replaces a small unit which took hours to fog the town. The new unit has a 50ltr Formulation tank will cover the town using one full tank, and taking a fraction of the time of the old one.
