SHIRE OF MUKINBUDIN
FOR THE PERIOD 1 JULY 2021 TO 31 MARCH 2022
Report on Significant variances Greater than 10% and \$10,000

Purpose

The purpose of the Monthly Variance Report is to highlight circumstances where there is a major variance from the YTD Monthly Budget and YTD Actual figures. These variances can occur because of a change in timing of the activity, circumstances change (e.g. a grants were budgeted for but was not received) or changes to the original budget projections. The Report is designed to highlight these issues and explain the reason for the variance.

The Materiality variances adopted by Council are:

Actual Variance to YTD Budget up to 10%:

Actual Variance exceeding 10% of YTD Budget

Actual Variance exceeding 10% of YTD Budget and a value greater than \$10,000:

Where a variance is identified as caused being "Timing" it means that the rate of expenditure, or income, is different that what was estimated in the budget but the variation is expected to minimal by the end of the financial year. Should this "Timing" be a cause for concern this will be identified.

All land except exempt land in the Shire of Mukinbudin is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2021/22 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also bearing considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

10. FINANCIAL RATIOS

	2021/22 YTD	2020/21	2019/20	2018/19
Current Ratio	1.82	1.86	1.82	8.44
Operating Surplus Ratio	(0.49)	0.00	(0.32)	(0.27)

The above ratios are calculated as follows:

Current Ratio

$$\frac{\text{Current assets minus restricted current assets}}{\text{Current liabilities minus liabilities associated with restricted assets}}$$

INTERPRETATION:

This ratio is a measure of short term (unrestricted) liquidity.

That is, the ability of the Council to meet its liabilities (obligations) as and when they fall due.

RISK INDICATORS:

Low – 1 or greater

A ratio of greater than one (1) indicates Council has more current assets than current liabilities and meets The minimum specified by the Department of Local Government, Sport and Cultural Industries

High – Less than 1

If less than one (1), current liabilities are greater than current assets and Council has a short term funding issue. Fails to meet minimum specified by the Department of Local Government, Sport and Cultural Industries

COMMENT:

Provided restricted assets are excluded correctly, it is a very useful indicator of the “true” financial position of Council, particularly in the short term.

As a general rule, when the current ratio of a Council is calculated at less than one (100%) it indicates a short term funding issue. However, it also needs to be considered in context of the overall financial position. If monitored correctly during the course of the year, it is a good indicator for when follow up action is necessary.

Operating Surplus Ratio

$$\frac{\text{Operating revenue minus operating expense}}{\text{Own source operating revenue}}$$

INTERPRETATION:

Effectively highlights the scale/extent of any operating surplus or deficit in relation to the overall size of the local government.

RISK INDICATORS:

Low – 0.15 or greater

The local government is providing a strong operating surplus which will give flexibility in the future in relation to operational service levels and asset base.

High – Lower than 0

The local government is experiencing an operating deficit.

COMMENT:

A sustained period of deficits will erode the local government’s ability to maintain both its operational service level and asset base.
